    "github": "https://github.com/lauphern",  
    "personal_website": "http://laurapascual.com/"  
  },  
  "bio": "Periodismo, comunicación audiovisual, diseño gráfico, desarrollo web... Todo esto me ha aportado algo valioso: entender la sociedad, dar rienda suelta a mi creatividad, saber realizar una comunicación efectiva, etc. Son pequeñas cosas que enriquecen mi experiencia como desarrolladora web: mi propósito es escribir código eficiente, siendo consciente del proceso global de la empresa.\nMe caracterizan mi pasión por aprender cosas nuevas y resolver problemas (debugging), junto con mi formación en ambientes internacionales y mi interés por conocer distintas formas de pensar. Además, durante mi experiencia como instructora en Ironhack Netherlands he aprendido a evaluar código ajeno, hacer valoraciones sobre la arquitectura de una aplicación y lidiar con la presión psicológica, tan importante para los principantes en programación."
